Language Fluency

What languages do you speak? Select all that apply. For each language that you select, including English, you may be asked to rate your proficiency in that language using the guidelines provided below in your interview.*

Native/Functionally Native: I converse easily and accurately in all types of situations. Native speakers, including highly educated, may think that I am a native speaker, too.

Advanced: I speak very accurately, and I understand other speakers very accurately. Native speakers have no problem understanding me, but they probably perceive that I am not a native speaker.

Good: I speak well enough to participate in most conversations. Native speakers notice some errors in my speech or my understanding, but my errors rarely cause misunderstanding. I have some difficulty communicating necessary health concepts.

Fair: I speak and understand well enough to have extended conversations about current events, work, family, or personal life. Native speakers notice many errors in my speech or my understanding. I have difficulty communicating about healthcare concepts.

Basic: I speak the language imperfectly and only to a limited degree and in limited situations. I have difficulty in or understanding extended conversations. I am unable to understand or communicate most healthcare concepts.
